**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Ive had a number of broadband providers and previously had ATT DSL. During their move to their next generation service I was driven to their higher priced bundled solutions because of repeated technical issues from their lower tier device until I learned about independent service providers in my area. I changed service providers to Sonic and not only has the competition ensured a better price but also the level of customer service is superior and the performance is dramatically better.

Please do not allow huge companies to stifle competition when they already dominate the market. You have a duty to tax payers to support small businesses and promote capitalism to find out if someone has can produce a better service for Americans.

Thank you.
